Welcome to Volvo Cars

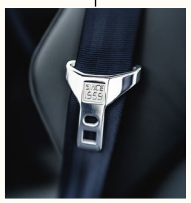

Volvo Car Group was founded upon the concepts of quality and safety by Assar Gabrielsson and Gustaf Larson in Gothenburg, Sweden, and in 1927 the first Volvo car was released. Ever since our founding in 1927, we've been designing cars that put people first and we have become a truly global company renown for safety selling over 700,000 cars all over the world.

1927

1959

1972

1978

Current hybrid and long-range plug-in hybrid models

Current fully electric models

A balanced portfolio of fully electric and hybrid cars

Volvo Cars offers a balanced portfolio of fully electric and hybrid cars, providing the strategic flexibility to leverage our strengths across diverse regional markets.

To provide freedom to move in a personal, sustainable and safe way

Personal

With our deep understanding of human behaviour we develop products that understand, support and protect people in and around the car. Never forcing anyone to compromise on the way they want to live life.

Sustainable

We always aim for the highest standards of sustainability in mobility. This approach doesn’t mean compromise - it means creating smarter, more efficient products that people can be proud to choose.

Safe

In 1927, our founders stated that safety is the guiding principle behind everything we do. We stay committed to leadership in safety and a higher quality of life for people.
